The "St. Cloud Building Reps System" has evolved from an experiment years ago to a strong united model system. The communication and participation continually improves among our members due to the commitment and dedication of the Building Reps to the St. Cloud paras and to MSEA. Their willingness as individuals and as a group to be "involved" is evident. Many attend MSEA trainings and have learned to apply the knowledge and skills learned to promote unity among classified school employees and MSEA. Participation and recruitment as a group and individuals has resulted in more member involvement. The Building Reps continually promote unity and strength by serving in roles such as local officers, negotiation team members, mentors, delegates and alternates to the Delegate Assembly, representing their peers on the Staff Development Committee and serving on the Labor Management Committee.

The Building Reps in St. Cloud serve as an executive board to the President of the local. They are active and involved in the buildings and work hard to keep the membership informed on school and union issues. They are recognized as valuable communication liaisons and resources by the school district.

St. Cloud Building Reps are the "go to" people for answers within the buildings and ultimately MSEA.

They are truly a unit that works together - strength in unity!
